Education

Federal University of Technology, Owerri Imo State	Jan 2014 - Dec 2019
<i>Bachelor of Technology in Information Technology</i>	

Relevant Coursework

- Software Methodology
- Database Management
- Algorithm Analysis
- Computer Architecture
- Data Structure
- Systems Programming

Experience

Imole Tech Hub

Web Development Instructor

- Creating course plans and instructional materials for teaching various aspects of web development, including HTML, CSS, JavaScript, and other relevant technologies.
- Delivering lectures, leading discussions, and providing hands-on demonstrations to teach students the principles and techniques of web development.
- Reviewing students' code submissions, providing constructive feedback, and guiding them towards writing efficient, clean, and maintainable code.
- Mentoring students through individual and group projects, offering guidance on project planning, execution, and troubleshooting.

NUPAT Technologies

Full Stack Developer Intern

- Developing and maintaining user-friendly features and interfaces using HTML, CSS, JavaScript, and React.js framework.
- Building server-side logic, databases, APIs, and other backend components using .Net framework
- Designing and managing databases using MySQL.
- Effectively using Git for version control to manage codebase changes and collaborate with other developers.
- Working closely with other developers, designers, and project managers to deliver high-quality software products within deadlines.

Projects

NUPAT Student's Dashboard | JavaScript, React, MUI, .Net

- Developed NUPAT Student's Dashboard specifically for students and employees of NUPAT Technologies to collaborate, and share knowledge to facilitate better team collaboration and knowledge sharing across departments and projects.

Fashion Hub | JavaScript, React, MUI, .Net

- Developed Fashion Hub which is an app showing catalog of sewing accessories, including fabrics, threads, needles, buttons, zippers, patterns, sewing machines, and other related items. Users can browse through categories and subcategories to find the products they need.
